

Title of Event Goes Here

EVENT TITLE is a hands-on, day-long, energy innovation competition aimed at engaging **LOCAL REGION** 4th through 12th grade students and educators in meaningful exploration of wind and solar technologies and careers.

1. ATTEND THE COACH TRAINING WORKSHOP

Join your fellow educators and our KidWind instructors as you get hands-on experience building wind turbines so that you can prepare your students for the Challenge! Those who come to the training workshop will receive a starter kit to get them going with their students!

2. BRING YOUR STUDENTS TO THE CHALLENGE

Take the structures your students have built on the road to our KidWind Challenge. Student teams will compete against each other to see whose turbine (and/or solar structure, depending on the site) most impresses our expert judges. Top performing teams will be invited to our National Challenge in Denver!
